GODDESS OF CHANCE BECOMES THE GUARDIAN OF NEGLECTFUL PEOPLE

A BITE OF FOOD TAKES AN EVENTFUL JOURNEY

Here Is An Interesting Account of What Happens To the Food We Eat

HINTS TO HEALTHY PEOPLE

The person fortunate enough to be enjoying good health should be careful enough to protect it. Nature should be assisted in keeping the Human System in a normal, healthy, properly functioning state.

The poisonous acids and waste matter which creep into the blood system, and which have such an unwholesome effect upon the entire body, should be driven from the system. Allowed to remain, they slowly take root and are a constant menace to good health.

The body free from poisonous acids and waste matter is not nearly so susceptible to sickness as is the weakened system of a careless, neglectful person.

There is not one person who would not profit from the use of "KEENO", the highly efficient sys-tem cleanser and regulator and blood purifier.

You can assure future good health by using this medicine. A few bottles of "KEENO", several times a year, is an excellent guarantee for continued rood health.
